	James provided a brief introduction. He has been in post for 1 week.

3: Clinical Hospital Service – Wales Led by Alwyn Fortune (15mins)

Purpose	To provide an update on the work completed so far and work to be done.
	<p>A summary of the work completed to date was given via a presentation. (slides to be shared)</p> <p>FIP is leading the international piece Karen Hodson leading on number 6 deliverable Collaboration with HEIW on deliverable 7 which will be looking at consultant pharmacists in Wales</p> <p>Questions/ answers included:</p> <ul style="list-style-type: none"> • Will and how metrics be included? They will, feed in examples when needed • Are hospital community links included? • Genomics? RPS Sophie Harding will be reviewing, collecting best practise examples • Retention and recruitment in Wales (areas differ significantly) • Are you looking at other professions and how they've dealt with introducing prescribing? • Is there a distinction to the Independent commission review currently taking place? Yes Andrew Evans CPhO commissioned this work specifically. <p>ACTION – HEAG to provide any examples of good practice to Alwyn</p>

4: Aseptic review update Led By Prof Eradiri (15mins)

Purpose	To hear an update on the work completed.
	<p>An update was heard around the work completed and still to be done on the RPS Vision for Pharmacy Practice in England. It is available on the RPS website: https://www.rpharms.com/england/vision-for-pharmacy-practice-in-england Slides will be shared.</p> <p>Lots of work still to be done. Implementation plan being built up and will look at commissioning. Not actively landed with ICS / ICB yet.</p> <p>ACTION examples of areas of great practice happening now that meet the goals/ themes please share with the team</p>

6: Future Clinical Pharmacy Update Led by Natasha Callender and Sue Ladds (15mins)

Purpose	To hear an update on the work completed.
	A comprehensive update on the background, timelines and work that has been completed was heard.

7: Summarising Key Actions Led by Roger Fernandes (15mins)

Purpose	To summarise key action points and ask for any agenda items for next meeting in May.
	<p>Defer Rahul item to next agenda</p> <p>Discussion around:</p> <ul style="list-style-type: none"> • Metrics - ICS data? measuring ICS / System • lots of ICB tools (primary care tools?) • aligning data is difficult - comparing different hospitals/ ICBs couldn't be completed • trying to standardise EPMA systems • still being looked at nationally - pulling data into primary/ secondary care together • really difficult to focus down • model health system - high level metrics for CEOs etc (pulling data together) • everyone wants their own things, not standardised <p>Next steps discussion:</p> <ul style="list-style-type: none"> • No new programmes of working being formed don't want to waste this work. • Priorities - capacity planning/ clinical prioritisation (job planning guidance/ system being developed/ trialled) • NHS Internal report - information gathering exercise, happy to share slides • How to get clinical prioritisation tools out there and in use? Massive barrier

	<ul style="list-style-type: none"> Scotland there is synergy, many tools and no consistency in clinical prioritisation <p>Something to bring back to HEAG:</p> <ul style="list-style-type: none"> - AOB discharge tool? David Campbell - How we give permissions to pharmacy teams to accept more risk in practice? not risky practice...but using tools etc taking small risks
